

DENTAL PRACTICE TCO COMPARISON

The math on your dental practice's software stack — over three years.

Typical 1–3 dentist practice with 12 staff. Patient data is HIPAA-protected, your AI assistant shouldn't train on it, and DocuSign and Zoom keep raising the bill every year.

What changes for a HIPAA-regulated dental practice

- Patient records, treatment plans, and intake forms stay on-premises.
- Encrypted at rest, audit-logged, signed BAA available — out of the box.
- AI assistant runs local Ollama for anything sensitive; switch to Claude
- or GPT for everything else with a per-conversation dropdown.
- Replaces your current eSign + telehealth + secure-messaging vendors.
