

MARKETING AGENCY TCO COMPARISON

What your agency actually pays for the AI-augmented stack.

Typical 15-30 person agency. Your client briefs, campaign drafts, and creative IP shouldn't end up in someone else's training set. And your AI bill is somebody else's recurring revenue.

What changes for a marketing agency

- Client briefs and campaign drafts stay on your network, not in vendor training pipelines.
- Per-project AI cost lives on a meter you control — switch models for positioning vs. copy vs. image work as needs change.
- Replaces Slack + Asana + DocuSign + Loom with one tool stack your team owns; clients with their own privacy concerns will notice.
- Adobe CC stays separate — Bestly doesn't replace creative tools.
